**SYNOPSIS OF THE PROPOSED RULE OF THE
STATE ELECTIONS BOARD, TITLE 183-1, *RULES OF STATE ELECTION
BOARD*, CHAPTER 183-1-15, *RETURNS OF PRIMARIES AND ELECTIONS***

Purpose: The purpose of the revisions to this rule is to clarify and define the procedures and requirements of preparing and conducting a statewide audit, as well as providing and defining a threshold of what constitutes a vote, by redefining the ambiguous zone.

Main Features: The main features of the revisions of this rule are to identify who participates in the statewide, when a statewide audit is to be conducted, how an audit is selected, and the type of notice that is to be provided to the public regarding the statewide audit. It outlines that an audit shall end once all selected ballots have been audited and the risk limit for the audit has been met. The revisions also identify that a ballot scanner shall be set to tabulate optical scan ballots so that an oval filled-in 20% or higher is considered a vote, an oval filled-in at least 10% but less than 20% will be reviewed by the vote review panel, and ovals filled-in less than 10% shall not be considered a vote.

**DIFFERENCES BETWEEN THE EXISTING RULE AND THE PROPOSED
AMENDMENTS OF THE STATE ELECTION BOARD, TITLE 183-1-15, *RULES
OF STATE ELECTION BOARD*, RULE 183-1-15, *RETURNS OF PRIMARIES AND
ELECTIONS***

CHAPTER 183-1-15

Rule 183-1-15-.02(2) Definition of Vote.

(1) Lever-type Voting Machines. A vote cast on a lever-type voting machine shall be the choice made by a voter by either operating the lever adjacent to the name of the candidate or answer to a question for which the voter desires to vote or by writing of the name of a qualified write-in candidate on the machine in accordance with the instructions for voting on the voting machine and then recording such votes on the machine by the actuation of the main lever which casts such votes and returns the other levers to their original positions.

(2) Optical Scan Voting
Systems.

(a) A vote cast on an optical scan ballot marked by hand shall be the choice made by a voter by either:

1. Filling in the oval adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or

2. Filling in the oval adjacent to the appropriate write-in space and writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.
- (b) In reviewing an optical scan ballot marked by hand which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), if the voter filled in the oval next to the name of a candidate whose name appears on the ballot and filled in the oval adjacent to the write-in space and wrote the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.
 - (c) If, in reviewing an optical scan ballot marked by hand which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), it appears that there is a properly cast vote and what is clearly a stray mark which has caused the ballot scanner to read the vote for such office as an overvote, the properly cast vote shall be counted and the stray mark shall be ignored.
 - (d) If, in reviewing an optical scan ballot marked by hand which has been rejected as containing an overvote in accordance with O.C.G.A. § 21-2-483(g)(2), a voter marks his or her ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the vote review panel as provided in O.C.G.A. § 21-2-483(g)(2)(B), the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.
 - (e) If, in reviewing an optical scan ballot marked by hand, a discrepancy is found between the voter's mark on the ballot that clearly and without question indicated the voter's intent and the result tabulated by the ballot scanner, the voter's mark shall control and be counted. Nothing herein shall be deemed to disallow the use of ballot scanners for tabulation of ballots.
 - (f) When an optical scan ballot marked by hand contains stray marks or marks which prevent the ballot scanner from properly recording valid votes as determined under this rule and by law, the ballot shall be duplicated in accordance with law to correct such problems and the duplicate shall then be tabulated.
 - (g) In lieu of manually duplicating a ballot pursuant to paragraph (e), the manual review of ballots with overvotes by vote review panels pursuant to O.C.G.A. § 21-2-483(g) may be done by reviewing a digital image of the ballot and electronically adjudicating the intent of the voter, if such determination is recorded on the digital image of the ballot.

- (h) A vote cast on an optical scan ballot marked by an electronic ballot marker shall be the choices indicated by the printed paper ballot.
- (i) When an optical scan ballot marked by an electronic ballot marker contains marks added, in addition to what was printed by the electronic ballot marker, the additional marks shall be ignored.
- (j) If, in reviewing an optical scan ballot marked by an electronic ballot marker in accordance with O.C.G.A. §§ 21-2-495 or 21-2-498, a discrepancy is found between the voter's choice indicated by the printed text on the ballot and the result tabulated by the ballot scanner, the printed text shall control and be counted. Nothing herein shall be deemed to disallow the use of ballot scanners for tabulation of ballots.

(k) Ballot scanners that are used to tabulate optical scan ballots marked by hand shall be set so that:

1. Detection of 20% or more fill-in of the target area surrounded by the oval shall be considered a vote for the selection;

2. Detection of less than 10% fill-in of the target area surrounded by the oval shall not be considered a vote for that selection;

3. Detection of at least 10% but less than 20% fill-in of the target area surrounded by the oval shall flag the ballot for adjudication by a vote review panel as set forth in O.C.G.A. 21-2-483(g). In reviewing any ballot flagged for adjudication, the votes shall be counted if, in the opinion of the vote review panel, the voter has clearly and without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

3) Paper Ballots.

- (a) A vote cast on a paper ballot that is not counted by an optical scan system (i.e. in certain municipal elections) shall be a choice made by a voter by either:
 - 1. Placing an "X", a check, or other similar mark in the square adjacent to the name of the candidate or answer to a question for which the voter desires to vote; or
 - 2. Writing the name of a qualified write-in candidate in the appropriate space on the ballot as specified in the instructions for voting such ballot.
- (b) If a voter marks his or her paper ballot in a manner other than that specified by law and this rule, the votes shall be counted if, in the opinion of the poll officers as provided in O.C.G.A. § 21-2-439, the voter has clearly and

without question indicated the candidate or candidates and answers to questions for which such voter desires to vote.

- (c) If the voter marked the square next to the name of a candidate whose name appears on the ballot and wrote in the name of the same candidate in the write-in space for the same office, the properly cast vote shall be counted and the write-in vote shall be ignored.
- (4) Write-in Votes. In no event shall votes cast for write-in candidates who have not qualified in accordance with O.C.G.A. § 21-2-133 be counted or recorded.
